

# Cybersecurity: Why DIY No Longer Flies

## The Case for Partnering with a Cybersecurity Expert

Still trying to safeguard  
your business yourself?

Today's cyber attackers scoff  
at off-the-shelf solutions.

And 43% of all data breaches  
target smaller businesses.\*

\*Verizon 2019 Data Breach Investigations Report

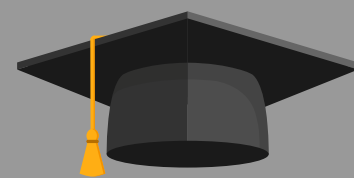

It's time to fight back before  
you're knocked out.

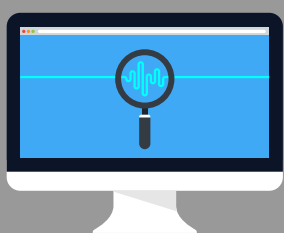

## The right cybersecurity partner will:

Create and implement a  
multilayered cloud-managed  
security solution.

Provide education  
and training.

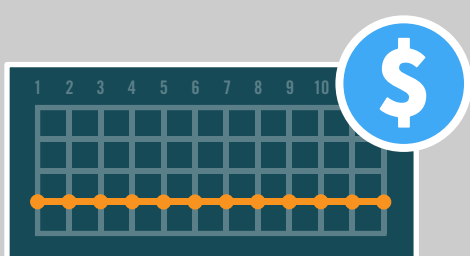

Monitor your system.

Manage all or as much of  
your solution as you'd like.

Quickly stop and  
remediate issues before  
they impact your business.

And get all of this for a  
predictable monthly price.

You focus on your business.  
We'll keep it secure.
