Deploying Webex Cloud

Webex Cloud gives you the complete collaboration experience

At the beginning of 2020, could anyone have predicted the changes it would bring? We now know users don't want tools, they want **capabilities.**

- More features: Video capabilities, hide background mess.
- More flexibility: Travel less and work from anywhere including home.
- More efficiency: Natively integrated headsets and video endpoints.
- More control: Setup and join online meetings, find meeting rooms and take notes.

Webex Cloud gives you the complete collaboration experience

At home, in the office or anywhere in between, discover the new user-friendly features of Webex Cloud:

Single client for Call, Meet and Message

Advanced meeting experience: setup, join and participate

Advanced video room devices and headsets

Automated meeting follow up and Assistant for notes

Work from home or any shared space

Manage and find meeting rooms and huddle spaces

Hide home life with virtual backgrounds

Advanced customer management applications

Are you ready to deploy Webex Cloud?

Manage adoption, subscription and your own costs through one easy application with Cisco Webex Cloud.
