Meraki Z3

- All-in-one network solution for fast and reliable connectivity from any remote work site
- Optional cellular redundancy (Z3C) for uninterrupted connectivity

Meraki Insight

- Reduced time to resolution, with a quick view of SaaS application or network quality degradation, without any additional hardware
- Proactive monitoring and troubleshooting in minutes, reducing outage downtime, workforce disruption, and improving SLAs

Meraki Systems Manager

- Seamless employee onboarding
- Increased remote work productivity
- Secure cloud access to business apps
- Remote configuration of policies and privileges based on user groups and mobile identity
- Quick BYOD set-up with easy instructions
- Ability to restrict, remove, or suspend sensitive data and settings from compromised devices
- Near real-time alerts to IT for tracking and compliance
