

# Cisco Nexus Dashboard

A single platform for full-lifecycle data center automation

### Today's data center is anywhere the data is

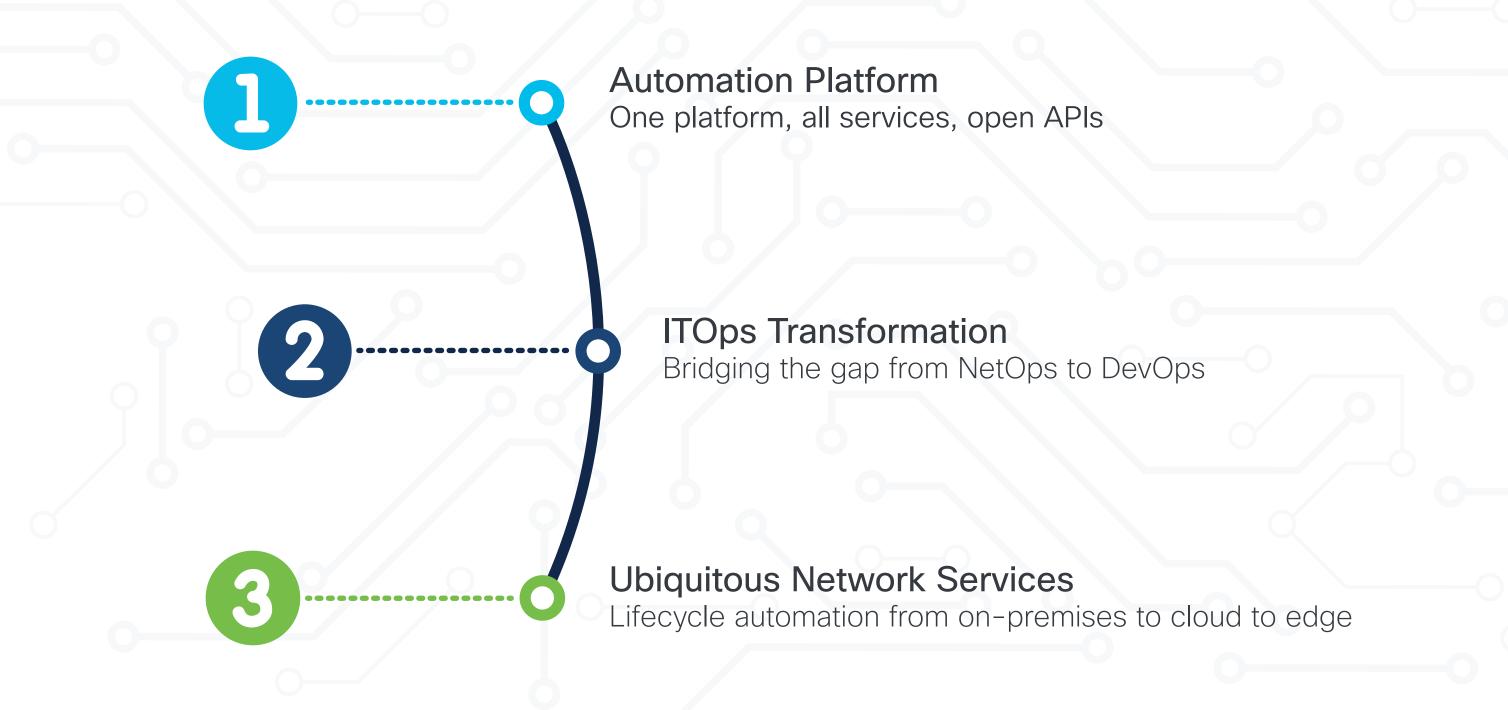

Pervasive visibility and telemetry for actionable insights in the multicloud era

Increased complexity in ITOps with hyperconnected users and devices

Multicloud environment to innovate faster and compete better

#### Setting the stage for real IT agility

#### Keep pace with centralized visibility and control

The Cisco Nexus Dashboard unifies disparate, siloed, fragmented toolchain operations. This simplified management console provides:

**Cisco Multi-Site Orchestrator** extends connectivity, policy across end-to-end fabrics with health monitoring

**Cisco Nexus Insights** uncovers issues proactively with network insights and continuous configuration verification

Integration with best-of-breed third-party tools for full ITOps lifecycle

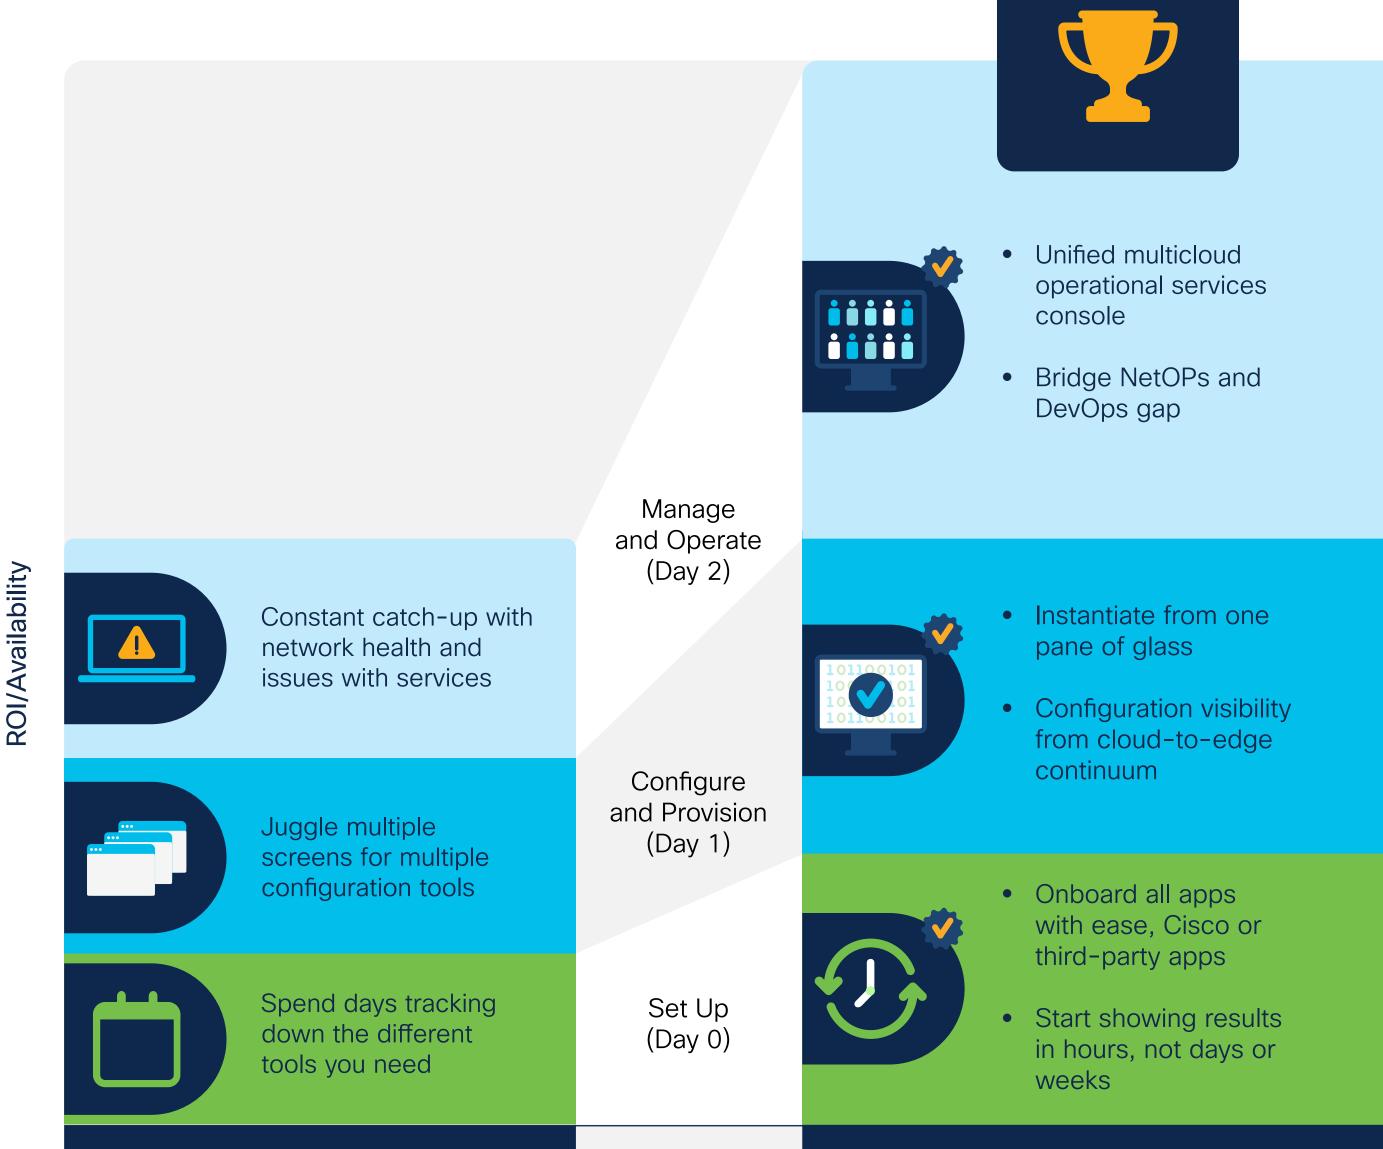

Simple to deploy Simple to consume
